Dear Parent/Carer,

You may well have seen in the news that some schools have been affected by the presence of RAAC in their buildings. RAAC, or Reinforced Autoclaved Aerated Concrete, is a lightweight form of concrete which was used in schools and other building construction from the 1950's until the mid-1990s. After some time and in some circumstances this concrete can collapse.

I wanted to write to reassure our parent community that Our Lady Catholic Primary School was constructed at a time when RAAC was not being used in construction and we can therefore be confident that there is no RAAC in this school building.

Kind regards,

Richard Curry
