Headteacher: Mr. R. Curry

Dear Parents/Carers,

Maths is at heart of everyday life; whether it is calculating the best value at the shops or working out how long a journey will take, it is difficult to avoid, and essential to understand. To that end, I want to start by thanking you for all the support you have given your child to help them better understand the mathematics they have been learning across the school and at home through homework.

To further support you, we are pleased to announce we will be running a Maths workshop for all parents and carers. In this session, I will be explaining how maths is taught at our school and sharing some key strategies with you. You will also have the opportunity to visit your child's classroom and see maths 'in action.'

This is a wonderful opportunity for you to see how maths progresses in our school and to work with your child in solving questions they see every day. The children will be able to explain what they are doing and how they are doing it. You will also be able to see the range of concrete resources that we use at school to support mathematical teaching and learning.

We hope this workshop will enable you to help your child further at home.

The workshop will take place on **Thursday 23rd March at 9.15am** and we hope you can make it!

Kind regards,

Leann Avery
(Maths Lead)
